BLK

Oil & fuel resistant

The outsole is resistant against oil and fuel.

Steel midsole

Puncture resistant steel midsoles are made from stainless or coated steel and prevent sharp objects from penetrating the outsole.

Water resistant Upper (WRU)

Prevents penetration of water if not permanently exposed to high levels.

S3

S3 safety shoes are suitable for work in an environment with high humidity and presence of oil or hydrocarbons. These shoes also protect against perforation risk of the sole, and foot crushing.

SRC slip resistance

Slip resistant soles are one of the most important features of safety and occupational footwear. SRC slip resistant soles pass both SRA and SRB slip resistant tests, they are tested on both steel and ceramic surfaces.

Steel toecap

Robust metal support to protect the feet of the wearer against falling or rolling objects.
